Patient Package £280 / AU\$500

Patient Package offers the “YourFootPain” patient information tool embedded on your own website, and a special branded shortlink to the page for your social media posts. You will get monthly analytics reports to see pages visited, and the ability to include internal links or a call to action on the patient information pages.

Here’s a real life examle.

Referrer Support Package £400 / AU\$700

Referrer Support Package offers the “VirtualPodiatrist” tool to share with your referral network. It will be a stand alone website, and will include a structured system for engaging with your professional referral network. Monthly analytics reports and printable patient information are included and will be branded to match the client.

Here’s a real life example

Premium Package £590 / AU\$1090

Premium package includes both options above. The interactive and engaging Patient Package keeps people on your website and gives them information about their concerns. The user friendly Referrer Support Package help you to engage with your professional referral network, demonstrating your scope of practice, and helping them with identifying over 40 foot and ankle conditions.
